**ABOITIZ POWER CORPORATION'S DISCLOSURE**

<b>Subject of the Disclosure</b>
Response to Queries from Investors
<b>Description of the Disclosure</b>
Response to Queries from Investors on Therma South, Inc.'s Forced Outages for the Period of February 16, 2016 to March 2, 2016
<b>Information Required</b>
<p>Therma South, Inc. (TSI), the operator of the Davao coal plant, availed of its allowable downtime to conduct rectification works on various operating parts of its Unit 2 boiler circulation system. Following the repairs made during the period of February 16 to February 29, 2016, the Davao coal plant was subjected to a series of grid synchronization activities to ensure the start up and safe operation of the power plant. Although TSI has declared the Commercial Operations Date for the Davao coal plant, it is expected that reliability of a newly built complex power plant will, in the beginning be lower, but over time improve as operational issues naturally come out in due course. TSI will continue to operate the plant in accordance with best practices and correct any operational issues immediately as they arise.</p> <p>TSI is a wholly owned subsidiary of AboitizPower.</p>
