NOTICE OF VIRTUAL HEARING

TO ALL INTERESTED PARTIES:

Notice is hereby given that on 25 May 2023, the National Grid Corporation of the Philippines (NGCP) and Therma Visayas, Inc. (TVI) filed their *Application (With Prayer for Immediate Issuance of Provisional Authority)* dated 11 May 2023, seeking the Commission's approval of their Ancillary Services Procurement Agreement (ASPA), with prayer for the issuance of provisional authority.

The pertinent allegations in the said *Application* are hereunder quoted, as follows:

NATURE OF THE CASE

1. This Application is for the approval of the Ancillary Services Procurement Agreement ("ASPA" or "Agreement") dated 02

May 2023¹, entered into by the NGCP and TVI, pursuant to Department of Energy (DOE) Department Circular No. DC 2021-10-0031 (the "AS-CSP Circular") prescribing the conduct of Ancillary Services Competitive Selection Process (AS-CSP); in relation to the Ancillary Services – Cost Recovery Mechanism (AS-CRM) promulgated by the Energy Regulatory Commission in its Decision dated 3 October 2007 in ERC Case No. 2006-049RC.

THE PARTIES

2. Applicant NGCP is a corporation created and existing under the laws of the Philippines, with office address at NGCP Building, Quezon Avenue corner BIR Road, Diliman, Quezon City. It holds a congressional franchise granted under Republic Act No. 9511,² and is authorized to engage in the business of conveying or transmitting electricity through high-voltage back-bone systems of interconnected transmission lines, substations and related facilities, and for other purposes. The NGCP is authorized to conduct activities necessary to support the safe and reliable operation of the transmission system.
3. Applicant TVI is a generation company duly organized and existing under and by virtue of the laws of the Republic of the Philippines, with principal place of business at Barangay Bato, Toledo City, Cebu.
 - 3.1 TVI is the owner and operator of a power plant composed of a coal-fired power plant, with a rated capacity of 353.94 MW continuous output at 60Hz, including required ancillaries and spare parts, located in Toledo City, Cebu (the "**Generation Facility**"), which was certified and accredited by the NGCP as capable of providing Contingency Reserve and Reactive Power Support.
4. NGCP and TVI may be served with orders, notices, pleadings and other legal processes through their respective counsels at the addresses indicated below.

ANTECEDENT FACTS

5. Republic Act No. 9136, also known as the Electric Power Industry Reform Act ("**EPIRA**"), provides that it is the responsibility of NGCP to ensure and maintain the reliability, adequacy, security, stability and integrity of the nationwide electrical grid in accordance with the performance standards for its operations and maintenance, as set forth in the Philippine Grid Code ("**PGC**"),³ adopted and promulgated by the Honorable Commission, and to adequately serve generation companies,

distribution utilities and suppliers requiring transmission service and/or ancillary services (“AS” or “Ancillary Services”)⁴ through the transmission system.⁵

6. Similarly, the PGC provides that NGCP is responsible for determining, acquiring, and dispatching the capacity needed to supply the required Grid AS and for developing and proposing Wheeling Charges and AS tariffs of the ERC.⁶
7. Ancillary Services is defined in Section 4 (b) of the EPIRA as referring “to those services that are necessary to support the transmission of capacity and energy from resources to loads while maintaining reliable operation of the transmission system in accordance with good utility practice and the Grid Code to be adopted in accordance with this Act.” These services are essential in ensuring reliability in the operation of the transmission system and consequently, in the reliability of the electricity supply in the Luzon, Visayas and Mindanao grids.
8. In order to implement and regulate the procurement of AS, the Honorable Commission approved the Ancillary Services Procurement Plan (“ASPP”) through its Order dated 9 March 2006 in ERC Case No. 2002-253 and the Ancillary Services-Cost Recovery Mechanism (“AS-CRM”) through its Decision dated 3 October 2007 in ERC Case No. 2006-049RC.
9. The NGCP certified that the units of the Generation Facility have met and complied with the Standard Ancillary Services Technical Requirements of the ASPP as capable of providing Contingency Reserve and Reactive Power Support. A copy of NGCP Accreditation Certificate No. AS-2022-V012 in favor of TVI, and valid from 21 December 2022 to 20 December 2024 is attached to this Application.⁷

Competitive Selection Process

10. On 04 October 2021, the DOE issued the AS-CSP Circular providing the policy for the conduct of the Competitive Selection Process (CSP) for the procurement of Ancillary Services by the System Operator (NGCP). Among the policies set by the AS-CSP Circular was the creation of an independent Third Party Bids and Awards Committee (TPBAC) to spearhead and manage the CSP.

⁴ Section 4(b), EPIRA. “Ancillary Services” refer to those services that are necessary to support the transmission of capacity and energy from resources to loads while maintaining reliable operation of the transmission system in accordance with good utility practice and the Grid code to be adopted in accordance with this Act.

¹⁷ The TPBAC Resolution and Evaluation Report dated 12 April 2023 indicating (Name of AS Provider)'s bid/offer for its Generation Facility as one of the winning bids is attached as Annex "I".

¹⁸ NGCP Secretary's Certificate certifying the BOD's Resolution confirming the TPBAC's Evaluation Report is attached as Annex "J"

¹⁹ Notice of Award in favor of TVI is attached as Annex "K"

²⁰ TVI's Generator Capability Curve is attached as Annex "AA".

Note that the capacities in the hourly profile are the maximum ancillary service capacities that can be provided by each unit. However, declaration and schedule shall be based on the latest AS Accreditation Certificate, which shall not exceed the Firm capacities in the hourly profile.

21. Schedule 3 of the ASPA provides for the formula for the computation of the Ancillary Service Payment, and the applicable rates for Capacity Payment:

A. Ancillary Service Payment

1. For CR, Ancillary Service Payment is the total of the Capacity Payment and the Incidental Energy Payment in B and D below.

Ancillary Service Payment_{RR, CR, or DR} = Capacity Payment + Incidental Energy Payment

2. For Reactive Power Support, Ancillary Service Payment is as follows:

kVAR Payment = (Incidental kVARh Rate x Compensable kVARh) + Incidental Energy Payment (if applicable)

Real Time Incidental kVARh Utilization while Providing Contingency or Dispatchable Reserves. This shall be paid based on the total recorded kVARh delivered/absorbed beyond 0.85 power factor lagging or 0.9 power factor leading from the time when the dispatch of RPS was instructed. The compensable kVARh shall be paid at:

Incidental kVARh Rate: PhP 4.00 / kVARh

Compensable kVARh = Actual kVARh – Base kVARh

Where:

Actual kVARh = actual reactive power provided within each interval

Base kVARh = corresponding kVARh at 0.85 power factor lagging or 0.9 power factor leading, for the unit's MW loading. For clarity, the MW loading is the unit's Pmin, or RTD schedule, whichever is greater

B. Applicable Rates for Capacity Payment:

1. Contingency Reserve: PhP 1.50 /kW/h

Formula for Capacity Payment =
Undispatched Scheduled Capacity x
Applicable Rate per AS type

C. Per Occurrence Applicable Rates:

1. Reactive Power Support (RPS): PhP 4.00 /kVAR/hr

D. Incidental Energy Payment

The Cost of Incidental Energy ("IE") is the cost of actual energy generated for the Firm Scheduled Capacity which shall be paid and computed using the formula below:

Payment of Cost of Incidental Energy (IE) computed as follows:

Incidental Energy Payment = {G X (Capacity Payment Rate + Energy Fees)} - (WESM Revenue - WESM Payment)

Where:

- G = summation of actual energy generated or dispatched from the Scheduled Capacity, in kWh
- Energy Fees, in PhP/kWh = Fuel Cost + Fixed and Variable O&M Cost, in PhP/kWh
- Fuel Cost, in PhP/kWh = fuel cost based on prevailing price with relevant fuel index based on published data
= Base Fuel Price * (16.13% * (NewCm/NewCo) + 64.07% * (ICI4m/ICI4o) + 2.13% * (BKRm/BKRo) + 17.67%) * FXm/FXo

Where:

Base Fuel Price = 4.0921 Php/kWh

NewCm = the average NewCastle index (USD/MT) for the last three calendar months prior to the Billing Period for which the Invoice is being prepared

NewCo = 404.15 USD/MT, as of December 2022

ICI4m = the average ICI4 index (USD/MT) for the last three calendar months prior to the Billing Period for which the Invoice is being prepared

ICI4o = 91.39 USD/MT, as of December 2022

FX_m = the average PhP/USD exchange rate for the last three calendar months prior to the Billing Period for which the Invoice is being prepared

FX_o = 55.684 PhP/USD, as of December 2022

- Variable O&M Cost, in PhP/kWh
= $VOM * (75\% * (RPCPI_i / RPCPI_o) + 25\% * (USCPI_i / USCPI_o) * (USFX_i / USFX_o))$

Where:

VOM = 0.070412178 PhP/kWh

RPCPI_i = Philippine CPI of the current billing month

RPCPI_o = Philippine CPI of 119.40 as of December 2022

USCPI_i = US CPI of the current billing month

USCPI_o = US CPI of 296.797 as of December 2022

USFX_i = Php to US dollar exchange rate at the end of the current billing month

USFX_o = Php to US dollar exchange rate of 55.684 PhP/USD as of December 31, 2022

- WESM Revenue = summation of WESM revenue based on market clearing price at the generator's trading node, arising from G.
- WESM Payment = summation of WESM purchases based on market clearing price at the generator's trading node, for generator's feedback power if applicable.

Incidental Energy Payment Reactive Power Support = **G X (Variable O&M Cost + Fuel)**

Where:

- G = summation of actual energy generated or dispatched to provide Reactive Power Support, in kWh
- Variable O&M Cost, in PhP/kWh
= $VOM * (75\% * (RPCPI_i / RPCPI_o) + 25\% * (USCPI_i / USCPI_o) * (USFX_i / USFX_o))$

- Fuel Cost, in PhP/kWh = fuel cost based on prevailing price with relevant fuel index based on published data
 = Base Fuel Price * (16.13% * (NewCm/NewCo) + 64.07% * (ICI4m/ICI4o) + 2.13% * (BKRm/BKRo) + 17.67%) * FXm/FXo

Where:

**ALLEGATIONS IN SUPPORT OF THE PRAYER FOR
CONFIDENTIAL TREATMENT OF INFORMATION**

28. Under Rule 4 of the ERC Rules of Practice and Procedure, the Honorable Commission may, upon request of a party and determination of existence of conditions that would warrant such remedy, treat certain information submitted to it as confidential.
29. Documents attached to this Application, particularly Annexes "L", "U", "V", "V-1", "W", "X", and "Y" contain commercially valuable and sensitive information and data that reflect TVI's investments, business operations, calculations, and other trade secrets.
30. TVI thus respectfully moves that these documents are not disclosed and treated as confidential documents in accordance with Section 1, Rule 4 of the Honorable Commission's Rules of Practice and Procedure. Accordingly, TVI submits one (1) copy of said documents in a sealed envelope, with the envelope and each page of the document stamped with the word "Confidential".

**ALLEGATIONS IN SUPPORT OF THE PRAYER FOR
PROVISIONAL AUTHORITY**

31. It is a declared policy of the State to ensure the quality, reliability, security and affordability of the supply of electric power.²² To this end, there is a need to comply with the system requirements for AS to ensure grid system security and reliability. As mentioned above, NGCP has the mandate to procure the required AS. However, the Honorable Commission must first approve the contract before the same can be implemented.
32. As the demand for power in Visayas increases, the requirements of the system likewise increases. Ensuring the integrity of the system is essential to protect the interests of the public. The absence of system reliability and stability will certainly discourage investments and growth.
33. Applicants respectfully submit that the immediate approval of the ASPA by this Honorable Commission is a necessity to maintain the present reliability and security of the Grid. In support of these allegations, NGCP submits a copy of the Judicial Affidavit of Ms. Lisaflor B. Kater,²³ which is attached to this Application.

PRAYER

WHEREFORE, premises considered, Applicants respectfully pray that the Honorable Commission:

1. Immediately **ISSUE** a provisional authority to implement the subject ASPA executed on 02 May 2023; and
2. **APPROVE**, after notice and hearing, the subject ASPA.

²² Section 2(b), EPIRA.
