PRESS RELEASE

2 April 2018

AboitizPower launches rooftop solar venture

*AboitizPower first entered the solar power market in 2016 with its **59-MWp** San Carlos Sun (Sacasun) project in San Carlos City, Negros Occidental. To date, AboitizPower has 1,272 MW of net sellable capacity, together with its partners, through its Cleanergy brand.*

AboitizPower is set to enter the rooftop solar space through a new business unit aimed at further expanding the company's already significant renewable energy portfolio under its Cleanergy brand.

The new company, called Aboitiz Power Distributed Energy, Inc. (APX), is already looking at completing several key projects in Luzon and Visayas in 2018, with a target to integrate it closely with the group's existing open access customers.

"We have been in the power industry for more than 80 years. This gives us a wealth of knowledge and technical capability that we can share to our customers who want to go into solar," AboitizPower President Antonio Moraza said.

AboitizPower first entered the solar power market in 2016 with its **59-MWp** San Carlos Sun (Sacasun) project in San Carlos City, Negros Occidental. To date, AboitizPower has 1,272 MW of net sellable capacity, together with its partners, through its Cleanergy brand.

Echoing Moraza, APX General Manager Ping Mendoza said their main differentiator is their experience in the power industry.

“The positive response from customers affirms our view that distributed energy technology such as rooftop solar complements existing products and services that the AboitizPower group provides,” he said.

AboitizPower has a wide portfolio of renewable energy plants under Cleanergy including its geothermal, run-of-river hydro, and large hydropower facilities all over the country, helping energize economic opportunities in its host communities while further advancing its business portfolio.

The company is pushing for a balanced mix strategy—maximizing Cleanergy while taking advantage of the reliability and cost-efficiency of thermal power plants.

##

About AboitizPower

AboitizPower is the holding company for the Aboitiz Group’s investments in power generation, distribution, and retail electricity services.

The Company is one of the largest power producers in the Philippines with a right-mix portfolio of assets located across the country. It is a major producer of Cleanergy, its brand for clean and renewable energy with several hydroelectric and geothermal power generation facilities. It also has various fossil-fired power plants in its generation portfolio to support the baseload and peak energy demands of the country.

The Company also owns distribution utilities that operate in high-growth areas in Luzon, Visayas, and Mindanao, including the second and third largest private utilities in the country.
