**PRESS RELEASE**

**May 30, 2014**

**TVI signed EPC Contract with Hyundai Engineering Co., Ltd and Galing Power Energy Co, Inc.**

**30 MAY 2014, MANILA, PHILIPPINES** – Therma Visayas, Inc. (TVI), a wholly-owned subsidiary of Aboitiz Power Corporation (AboitizPower) signed an Engineering Procurement and Construction (EPC) contract with Hyundai Engineering Co., Ltd and Galing Power Energy Co, Inc after two months of negotiations.

Upon signing the EPC contract, TVI will be issuing a limited Notice to Proceed to perform design engineering and detailed physical data collection in preparation for the construction of the Php41-billion, 300-MW net capacity baseload power plant located in Sitio Looc, Brgy. Bato, Toledo City, Cebu. The project's generating equipment will consist of 2 x 170 MW Steam turbines and 2 Circulating Fluidized Bed (CFB) boilers.

"We look forward to working closely on this project with our EPC contractor and the local community to ensure we deliver a quality power plant on time. This project will assure Cebuanos that we will have adequate and competitively priced baseload power supply in the island by 2017. This is a very important project for the Visayas grid," Erramon I. Aboitiz, AboitizPower Chief Executive Officer, said.

The Department of Energy projects 2016 to 2018 to be a critical period for the Visayas grid. The TVI project has been expedited to meet this looming power deficit. AboitizPower is also currently working toward Financial Close with local financing institutions.

TVI is targeted to go online by third quarter 2017. The project is expected to create over 1,500 new jobs during construction, and about 150 new permanent jobs during operation.
